SureFast Cable Seal

The FlexSecure FS 50 rates High Security per the ISO 7712:2013 testing standard and is C-TPAT and PIP compliant. This versatile seal fits many applications and is popular for sealing bulk railcars and intermodal containers and trailers.

Applications

- Railcars
- High Value Shipments
- Trailer Door Latches
- Container Door Latches

Features

- ISO 17712 classification - High Security
- Tamper-evident non-preformed steel cable unravels when cut and is galvanized for corrosion protection
- Can be customised by laser printing a name, logo, consecutive numbers and barcode

Materials

Body: aluminium alloy
Internal locking components: Zinc and Steel
Cable: 5.0mm galvanized non-preformed aircraft control cable

Strength Characteristics

Average pull apart strength: 3000bs (1361kg)

Dimensions

Body: 1.12" x 1.54" x 0.35" (28.6x 39.0x8.9mm)
Cable Diameter: 5.0mm (3/16")
Cable Length: Standard - 12"
(Custom lengths available)

The non-preform cable frays wildly when cut and is galvanized for corrosion protection. The patent pending locking mechanism inside the anodized aluminiumhousing makes sure your goods safe in transit.

Laser Print options available: Name, logo, consecutive numbers, barcode.
