

Steel Strapping Systems

SUREFAST[®] STEEL STRAPPING – FOR APPLICATIONS REQUIRING HIGH TENSION AND STRENGTH

THE BENEFITS OF SUREFAST[®] STEEL STRAPPING

- > **Strength** – used where high strength is required
- > **Tension** – high tension can be applied to provide load security
- > **Resistant to cuts and abrasion**
- > **Resistant to heat**
- > **Sealless** – can be used with sealless tools providing speedy application and low cost

See overleaf for products and specifications

APPLICATIONS

- > Bundling of heavy and round objects such as pipes and tubes
- > Securing loads which may be subject to high temperatures or sharp edges for which plastic strap may not be suitable
- > General crating, palletising and bundling of heavy loads

HEAVY DUTY STEEL SAFETY CUTTER (SF 1430)

This is a high quality steel safety cutter which will safely cut steel strap up to 35mm wide and 1.2mm thick.

This tool has built-in shock absorbers which allow steel strap to be cut safely in one easy stroke.
